

Patterson Civic Center
Casino Gaming Event with
Banquet Dining Tables

* Casino Gaming tables not provided

The Patterson Civic Center is approximately 52ft x 122ft for approximately 6200 sqft. The attached floorplan is a sample layout of seating arrangements for Patterson Center which will seat 160 people at Banquet Tables in the Hall with Casino Gaming Tables in the Auditorium. The Center can accommodate more people than this sample layout. According to the 1997 Standard Building Code, the square foot assembly space could support 600 people maximum. However, from a practical standpoint, this number should be 450 maximum. Table seating with maneuverable space would decrease this count.
